

# How to Create S.M.A.R.T GOALS

## S.M.A.R.T Goals

To get started:

- Take a look at the S.M.A.R.T. goal descriptions below and think of a couple goals you want to achieve.
- Write your goals in the provided tables, print them, and display them in a spot that you see every day to serve as a helpful reminder!

Define your goal as **specifically** as possible. It'll make it easier to achieve your goals. The more **specific** it is, the better.

A **measurable** goal is helpful in showing you your progress as you work towards completing it.

It's good to have a challenging goal, but make sure it's also **achievable**.

A **realistic** goal means you have enough resources and time to accomplish it.

When do you want to accomplish your goal? Choosing a **time** will help you stay motivated and focused.

My goal is to...	My goal includes...	It will be measured by...	It's achievable because...	It's realistic because...	I want to accomplish this goal by...
Wake up early	Waking up by 7:00 a.m at least 5 days a week	The number of days each week I am able to wake up by 7:00 a.m	I am able to go to bed by 10 p.m	I no longer have night school	The end of the month, 1/31

I, name, will goal by date.
